

ClassFlow Desktop Installation and Activation User Guide

OVERVIEW

ClassFlow Desktop is an application that runs on your computer. Once installed, it will allow you to have an interactive experience with your students without needing to use a prepared ClassFlow lesson or connection to the internet. Anything on your desktop becomes material that can be shared with students. You also have the option of logging into your online account, giving you access to your ClassFlow resources.

The information contained in this document explains the process of downloading, installing and activating your ClassFlow Desktop application.
